

## **Concessions for Phase 2 of The New SLC**

When Phase 2 of The New SLC opens in 2023, passengers will have an even greater variety of retail, and food and beverage options available to them.

Phase 2 will include local popular restaurants Red Rock and Blue Iguana as well as national brands like Burger King, Auntie Anne's, Jimmy John's and P.F. Chang's. These new additions will add 28,406 sq. ft. of food and beverage space to The New SLC. With the completion of Phase 2, The New SLC will offer 25,000 more sq. ft. of food and beverage space than the previous airport.

In addition to new food and beverage options, Phase 2 will also include a mix of national and locally inspired retail concepts. Hudson News, a Utah Jazz store and Atrium were among the retail options selected. Minute Suites will also arrive as a part of Phase 2 and will provide travelers with a quiet place to nap or work while waiting for their flights. [View all of the concessions coming in Phase 2.](#)

Street pricing was implemented at The New SLC for all concessions. This means passengers pay the same price charged at locations outside of the airport.
